Introduction

Sachin Malhotra passed out of our two year Acharya course in the Bharatiya **Vidya Bhawan** in June 2007 and straight away joined the research class where his participation is active, stimulating, original and never stereotyped. He took me by **surprise** by telling me that he had done a research of his own on **Jaimini's** Navamsha Dasha. I know fifteen types of navamsha dashas all of which work and some of which only 1 have taught to two or three people. I have made **clear—since** my sickness of 2000, I decided to encourage students to come out with their researches fast and that I would not write any book but encourage them to produce their original researches as soon and as fast as they could. The result **is** there before anyone and everyone to see.

I did not expect a student of Jyotisha Acharya with only six months in research to come out with a totally original research **as** he had done. It is a tribute to the high quality of the teaching we impart.

It must be remembered that no one has produced any research on Navamsha dasha which could be tried by astrologers interested in the less discussed branch of Jaimini as we have done in the Bharatiya Vidya Bhawan.

We have not bungled jaimini with perversions like the eight karaka scheme and the fraudulent chara karaka substitution. Those who are indulging in these frauds were embarrassed recently when one of their own stalwarts challenged them to show where was the scheme of eight karakas in Jaimini or Parashara. No one dared to engage him in a debate and his challenge remains unmet through silence. G.K. Goel who used the eight karaka scheme and charakaraka substitution most Irrationally and using my horoscope, circulated a paper through internet failed, I am informed, to participate in this debate and defend his blindly accepted

theories. These astrologers do not **know** how much damage they are doing to astrology. One of them, claiming to be of a **parampara** failed to show how this **parampara** ever got created and whether there was any other astrologer belonging to this so called *parampara*. When a fraud is created, one sole individual claims to be belonging to a *parampara*. Similarly, some other individuals can **also** claim to be representing a fraudulent *parampara* and such frauds will multiply. Go to google and see if in **Rampur gharana**, Klrana **gharana** etc. of Hindustani classical music there is only one single **individual** representing a *parampara*. Young gullible astrologers never had the intelligence to ask **if** a *parampara* can be represented by one sole individual and **G.K.Goel** never ever thought **it** necessary to raise this all important question and objection. An individual's unproven researches like a malefic becoming Atmakaraka (even Rahul) shows a spiritually evolved person can get blindly accepted by gullible learners through internet these days.

Sachin stuck to the basics as taught to him, pondered over it and came out with this book **which** appealed to me. / am exceedingly happy that Sachin caught the hint I had given in my **book MandookDasha** and worked on it to produce, *let me repeat, an original research which has pleased me, startled me and has given me such immense pleasure as must happen in the life of a teacher who sees a student produce genuine research avoiding those stupid pitfalls like fraudulent Kaal Sarpa dosha, Rahu Kalam which have no basis in any known classic and upayas or pariharas as though they can act like God and change fate.*

Astrologers are not in the habit of proving their so called research through **replicable** methods as we in the Bharatiya Vidya Bhawan do.

I asked my students never to run after the celebrity horoscopes or pick horoscopes from different astrological journals which do not assure you about the correctness of the birth data. Sachin stuck to my advice and has used horoscopes from his own collection. Then he **verified** the horoscopes through some events, based being the best method of correcting a horoscope, and then produced this research. He had to make sure that the navamsha **lagna** was hundred percent correct.

One has to read the book, apply the methodology given to his own or some horoscopes in his collection after making sure that

the navamsha being used is correct because this research on navamsha dasha can be seen to be sound only if the navamshas being used are correct.

If the navamsha is not correct, one can correct it, before applying this research.

Navamsha dasha can be applied into a different way **also** and similar results got. Since no hint about how to calculate is available anywhere, it is **only** through a research that it can be proved. Is why this effort of Sachin is so laudable because he proves through research.

Significations of Karakas

Sounding a warning: the pattern of a fraud

I must warn and caution young astrologers to become aware of the pattern of frauds in astrology in India. Years ago, a fellow working in the central government came to me, introduced himself as a descendant of or in the lineage of Pawhari Baba about whom **Swami Vivekananda** has written and described himself as an astrologer in that line! I had never heard that Pawhari Baba was an astrologer. But this fellow went further and told that he knew some secret remedial measures and one of them was that he could nullify Mars totally in the horoscope of a girl who was suffering from **Kuja dosha**. My further questions troubled him and he stopped coming to me.

I have met other frauds who fall into this pattern—trace your lineage, as a sole inheritor of a parampara, in the line of a great saint who must somehow become an astrologer and then claim rare remedial measures not known to anyone else in the world.

In my book, "**Predicting through Jaimini Chara Dasha**", I have shown use of seven chara karakas of Jaimini. Before it is shown **how** events are timed through Navamsha Dasha, let the significations of these seven karakas should be understood.

1. Atmakaraka (AK) - It signifies **soul**, mind and body of a person and character, nature and general health of the native. It gives salvation or bondage which **is** why **Rahu**, the demon can never become Atmakaraka. This fact has been stressed by Iranganti Rangacharya many times.

2. Amatyaakaraka (AmK) — The literal meaning is a minister or a person in high post. But in Jaimini astrology we also use it for profession, business, job and even source of income. Amatyaakaraka

represents all the karmas done by a person in his day to day life whether they are for earning money or not.

3. Bhratrikaraka (BK) — Bhratrikaraka is the significator of brother and sister generally but it also signifies the father. Basically, it represents the significance of the third and the ninth house of a horoscope. We can also extend other significations like short journeys, spiritual inclinations, religious activities, hobbies, interest in writing.

4. Matrikaraka (MK) — It refers to the mother of a person in Jaimini. Extend it to the significations of the fourth house like property as Mrs. Akhila Kumar has done, and read property, vehicles and house also from matrikaraka.

5. Putrakaraka (PK) — In Jaimini, putrakaraka signifies, children, education, wisdom, intellect interest in teaching, reading and authorship.

6. Gnatikaraka (GK) — The literal meaning of gnatikaraka is relative. It should also signifies all that sixth house and its lord represents along with the eighth and twelfth houses and their lords. These are diseases, mishaps, accidents, agony, pain and difficulties in life. It also shows competition and competitive spirit is of utmost importance in the life of a sportsman, player and other competitors in various fields and of course diseases and disputes. Generally, it represents cousins, maternal relations etc.

7. Darakaraka (DK) — The literal meaning of *dara* is spouse. This karaka also represents all that seventh house and its lord represent. It should then be seen to glean information about love affairs, business partners, foreign connections.

Late B. Suryanarain Rao, grandfather of Dr.B.V.Raman and Dr. Raman himself used only seven Jaimini karakas and P.S. Sastry and Iranganti Rangacharya, two of the finest Sanskrit scholars who did astrology successfully, also used only seven karakas. But in recent years an unscientific theory of eight karakas and even charakaraka substitution has been used by some people. One of them, belonging to that group, revolted and challenged as I learnt from an e-mail sent to me, reproduced below.

The objections raised in that eight karaka group were as follows—

The theory that seven chara karaka scheme is for mundane charts, eight char karka scheme is for living being was challenged.

"If you or anyone can show me the verse of Parasara that says

the above, we can discuss your views further."

When mentioning the two schemes, Parasara dearly said that the **8-karaka** scheme is used when two planets are in the same degree. He never talked about "living beings" vs "mundane charts". Instead he talked about matching the degrees of planets to decide 7 vs 8 karaka schemes.

A clear guideline of Parasara has been ignored and a big hypothesis is made instead. "Such a theory with a weak foundation **falls** to convince me."

In this case. . . has simply thrown the entire CK replacement theory Into the trash can.

Chara karakas are fixed in each chart. They do not change from time to **time**. There is nothing called chara karaka parivartana.

In fact, Vriddha **Karikas** say the following:

Ravyaadi Shani Paryantaah Bhavanti Sapta Kaarakaah |
Amsha Saamyee Grahau Dvau Ca Raahvantaan Ganayet Dvija |

(**Meaning:** Planets starting from Sun and going upto Saturn become seven **significators**. And, O brahmin, if two planets are in equality of degrees, one may count ending with Rahu.)

Interestingly, G.K.Goel who circulated a paper through e-mail that was sent to me, also used eight karakas and charakaraka replacement theories without any basis and now when challenged ran **away** from the battle while others kept silent as they got exposed so openly.

Iranganti Rangacharya was quoted in this debate **also**—

*He considers Jaimini sutras are much earlier to Parasara **Hora** since the Sutra Vangmaya **is** much earlier to **Sloka** Vangmaya. He considers Parasara Hora **is** a compendium of all the astrological principles available, **that is** a compilation work.*

Regarding the Chara Karaka Issue, he works **out** ... excepting Rahu becoming **Atma** Karaka. He has shown how Rahu can be other Chara Karaka **vide his Jaimini Sutramritam** Sanskrit-English Commentary. He has not resolved the case with Rahu becoming higher longitude planet after deducting from 30 degrees, out of eight planets.

*He tells that Rahu cannot become Atma Karaka since Jaimini himself says that " Sa **Ishte** Bandha **Mokshayoh** ", meaning that AK*

can give either Bandhana **or Moksha**. But, since Rahu is karaka for Bandhana, he can never be considered for chara Atma Karaka.

Using Karakas my own original research

In no commentary of **Jaimini** has anyone ever shown how the seven karakas are to be used for predicting specific events. All **this** was done by me for the very first time in three thousand or more years as is clear from my book, my predictions and the predictions of my students over a period of more than thirty years now. Why and how those famous commentators did not feel it necessary to show the use of karakas remains a mystery to me.

Karakamsha and Swamsha

Both in Rajasthan and Darbhanga horoscopes, I have seen seven Karakas used and the navamsha of Atmakaraka put In the birth horoscope and described as Karakamsha **lagna**.

When **the** navamsha position of all planets/Karakas **is** put In a chart, it is called Swamsha.

I have followed **it** throughout and got results over a period of more than three decades.

Astrology these days seems to be swinging between the frauds of so called parampara in which lunatic theories like charakaraka rotation, as though karakas have a game of musical chairs spring up-to one end and at the other end we have outdated, unreplicated dogmatic statements without series of **illustration**.

Astrologers should be Innovative intelligently, state a theory based on observations, prove them through series of illustrations and sound methodology, replicate them themselves and through others to contribute something to meet the needs of a growing, changing and more than half rootless society which has moved away from the orthodoxy and dogmatism of feudal societies largely **in** metropolitan cities and societies.

This book meets such needs.

How the Clue was Got

In Jaimini astrology we have been using the rashi dashas very successfully and predicting with great percentage of success. The question often asked is whether navamsha dasha too can be used **with** such confidence and success.

In Jaimini Sutram the hint available about navamsha dasha is that it starts from the navamsha lagna itself in case it is odd and from the seventh house if the lagna is even.

The order of the dashas is direct if the navamsha lagna is odd and indirect or anti-clockwise if it is even.

The dasha period is uniformly nine years each is what some writers have said and it is totally wrong as will be shown here.

Since no **illustrated** example has been given anywhere, It was tried and no results were got.

The other hint available was in the book of Sri K.N.Rao on Mandook Dasha where he gives two **hints**~

- a. Navamsha dasha is to be used only on the navamsha chart.
- b. In odd sign the dasha should start from the lagna itself.

From these two hints, I proceeded to work on and through trial and error have produced a research which is my own and original. Shri K.N. Rao encouraged me to work on it and has decided to produce this in book form.

Sthira Karakas in NavamshaDasha

To understand different aspects of human life, there is a scheme in Jaimini of **clubbing** seven Charakarakas with Sthirakarakas as explained below—

- a. Sun and Bhratrikaraka are to be used for father.
- b. Moon and Matrikaraka are to be used for mother.
- c. Mars and Bhratrikaraka are to be used for younger siblings like brothers and sisters.
- d. Jupiter and Bhratrikaraka are to be used for elder brothers and sisters.
- e. Venus and Darakaraka are to be used for spouse, the lover, the beloved etc.
- f. Jupiter and Putrakaraka are to be used for children.

In this book, this scheme has been followed throughout.

Benefic and Malefic Planets in Jaimini

It is well known that in Jaimini, the division of benefics and **malefics** are of special significance and should be kept in the mind in analysing horoscopes.

The benefics are

1. Jupiter
2. Mercury
3. Moon
4. Venus and
5. Ketu

Note: Ketu taken as a malefic in Parasharl astrology acquires the role of a benefic here.

In *Jaimini Sutras* it is clear that Ketu is designated as a benefic as mentioned in a sutra in chapter two/sub-chapter three-

Atra Shubha Ketuh II
अत्र शुभ केतुः II

The malefics are

1. Rahu
2. Saturn
3. Mars and
4. Sun

How to Calculate Navamsha Dasha

The following points must be kept in the mind in the use of navamsha dashes.

Ayanamsha

To calculate navamsha dasha we need a correct navamsha lagna otherwise the whole exercise is futile. Use where accurate birth time is available only Chitrapaksha Ayanamsha (**Lahiri** as it is known popularly) to get a correct navamsha. Avoid Raman ayanamsha or Yuktेश्वरा ayanamsha totally always.

Seven Karakas

Use only seven karakas as it will be seen how accurate the results are got. Jaimini or Parashara have not approved of using eight karakas and have advocated using Rahu only when two karakas are of the same degrees and minutes as has been proven repeatedly by Shri K.N. Rao. But it has been found from our experience that if planets are calculated upto seconds, two planets do not have same longitude at all and therefore using Rahu as a substitute is more theoretical than a practical necessity.

Mark the Karakas

Mark all the karakas in the navamsha or the relevant karaka which is the focal point of a reading/prediction as we do in the birth horoscope in the case of Chara dasha.

Dasha

Dasha Order

The dasha order for odd and even navamsha lagnas is as follows—

Odd Navamsha lagna

It will be from the lagna house and in direct order.

Aries: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

Gemini: Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries and Taurus

Leo: Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini and Cancer.

Libra: Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo and Virgo.

Sagittarius: Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra and Scorpio.

Aquarius: Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius and Capricorn.

Even Navamasha Lagna

It will be from the seventh house and in direct order.

Taurus: Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo and Libra.

Cancer: Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio and Sagittarius.

Virgo: Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn and Aquarius.

Scorpio: Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces and Aries.

Capricorn: Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus and Gemini.

Pisces: Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer and Leo.

Dasha Periods

Count from the rashi to its lord in **direct** order in the case of odd sign.

Count from the rashi to its **lord** in indirect order in the case of even sign.

There is no deduction of one year as in Chara dasha and in the case of the placement of the lord of the house in the seventh house **only** seven years **are** to be taken not ten years as in the case of Mandook dasha. Similarly take full **12** years if the lord is placed in the twelfth house.

The Antardasha Order

In navamsha dasha, the antardashas begin from the rashi itself unlike in the Chara dasha where the antardasha of a rashi comes last. It will be calculated **thus**—

Aries: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

Taurus: Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces and Aries.

Gemini: Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries and Taurus.

Cancer: Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus and Gemini.

Leo: Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini and Cancer.

Virgo: Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer and Leo.

Libra: Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo and Virgo.

Scorpio : Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, **Taurus**, Gemini, Cancer, Leo, Virgo and Libra.

Sagittarius: Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra and Scorpio.

Capricorn: Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio and Sagittarius.

Aquarius: Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius and Capricorn.

Pisces: Pisces, Aries, Taurus, Gemini, Cancer, **Leo**, Virgo, Libra,

Scorpio, Sagittarius, Capricorn and Aquarius.

Education

It is well known and has also been the subject matter of a study that Indian parents spend more on the education of their children than on any other thing. Astrologers have developed a more successful and dependable method of educational counselling, particularly Shri K.N.Rao earlier and now Shri Naval Singh than anyone else and the astro-educational counselling is far superior to the best of psychological guidance.

In Jaimini, education is seen from the fifth house as in Parashara but it is to be seen from the fifth house from Karakamsha and the fifth house from the dasha running.

Maharshi Jaimini has taken the second house from Karakamsha or rashi dasha for education also. Between the two, the fifth and second houses from the running dasha, the one which is stronger prevails.

These points will be clear from the examples being discussed here.

Example I - Male (Science and law)

Swamsha is Gemini.

Dasha order is invariably direct but counting can be direct and indirect depending on odd and even rashis is a principle that should be kept in the mind without falling.

Here the navamsha lagna is even so that dasha will start from the seventh house, Scorpio and the first dasha will be of ten years as Mars counted indirectly is placed in the tenth house.

Dhanu dashawill be of four years.

Makar dashawill be of two years.

Kumbha dashawill be of eleven years.

Meena dashais of twelve years.

Sagittarius.....from	2000 to 2010

After finishing her higher secondary, she did a course in computer applications as soon the dasha of Sagittarius/Sagittarius started.

Amatyakaraka Moon is in Sagittarius which reveals her inclination to opt for a professional course.

Putrakaraka Jupiter aspects Sagittarius along with Mars showing technical education. It is confirmed by the fact that the fifth house from Sagittarius has Ketu (language, in this case, the computer language) aspected by Sun, Saturn and Venus which shows sophistication represented by computers.

She took her training in Computer Applications (BCA).

Masters in Computer Applications in May 2004

When the Sagittarius dasha started, she took admission in Computer Applications course. In the antardasha of Aries having Ketu and fifth from there is Venus aspected by Rahu and Ketu. It gave her an opportunity to do higher course. She did Masters in Computer Applications in Sagittarius/Aries.

house next to Libra. The second house with Gnatikaraka Mars and debilitated Moon is an indicator of medical education here.

From the antardasha of Taurus, the fifth house has Putrakaraka Saturn.

The native completed his MBBS course in Jan 2000 and joined MS course in Nagpur in the navamsha dasha of Scorpio/Sagittarius. The antardasha rashi Sagittarius is being aspected by Putrakaraka Saturn and being in the tenth house, it gave him a good professional education. He successfully completed his medical course. Both of his parents and his wife are also in medical profession and it is a family of doctors.

The role of Gnatikaraka, the lord of diseases, watery sign, sixth house with the aspect or combination of Amatyaakaraka can be a good indicator of medical profession. It should be researched into comprehensively.

Career

In a normal Indian family the four stages of life to be examined these days are education, career, marriage and children.

ECMC can be used as a **convenient memory** tablet. To this we can add illness and death *as* six most important areas about which astrological consultation is done and is in demand.

Having dealt with education, we cannot show the use of the navamsha dasha in the choice of careers.

In Shri **K.N.Rao's** Predicting through Jaimini Dasha he has given some Jaimini rajayogas which are combinations of Atmakaraka, **Amatyakaraka**, Putrakaraka, Darakaraka and the fifth lord in the birth chart.

Since we are dealing with navamsha dasha, we will see the same karakas as given in the birth horoscope in the navamsha lagna but the *fifth lord of the navamsha lagna*.

Conjunctions of Moon and Venus or their mutual aspects is a Jaimini rajayoga.

Moon aspected by many planets is a rajayoga.

The placement of Amatyakaraka in kendra, trikona or the eleventh house from Atmakaraka is favourable for rise in life.

A well aspected Amatyakaraka is good for one's career while an ill aspected Amatyakaraka can be otherwise.

After this preliminary introduction, we **will** proceed to show how to see careers **in** navamsha charts through navamsha dasha.

Mars (Parashara aspect) makes clear amply.

A younger brother was born in the dasha of Sagittarius as Bhratrikaraka aspects this rashi.

His wife is a teacher as Jupiter in the tenth house from the seventh house shows.

Jaimini rajayogas in the navamsha are—

Atmakaraka Jupiter, Darakaraka Saturn and fifth lord of navamsha Mars are aspecting each other.

The combination of Amatyakaraka Mercury and Putrakaraka Moon is another rajayoga.

He got his first job in Pisces/Leo in July 1994. Amatyakaraka is placed in the eleventh house from mahadasha Pisces and the antardasha sign Leo is aspected by both AmK and PK.

In the antardasha of Aquarius he changed job and joined Indian Airlines in August 2000. AmK in the twelfth house shows this change.

He got promotion and became a manager in Aries/Pisces on 1 December 2006. AmK Mercury is in the tenth house from Aries.

In **Taurus/Taurus** dasha in September 2007 he was transferred to Kashmir from Delhi. In Jaimini astrology if AmK is placed in the third, ninth or twelfth house from rashi dasha it can give change or transfer in service. The transfer to a far away place or displacement from home happened when fourth house from rashi dasha is afflicted by malefics. Here AmK Mercury is placed in the ninth house from Taurus rashi. And fourth house from Taurus is afflicted by malefic Sun and Rahu.

Marriage

The institution of marriage which is considered a sacred relationship is breaking down and is taking strange unconventional turns in recent decades.

Through Navamsha dasha these factors can be shown and seen in a horoscope, if the navamsha given is correct.

First we should know the method of timing marriage through the Navamsha dasha.

See the following-

1. The rashi/rashis influenced by Darakaraka.
2. The rashi/rashis influenced by Venus, the Sthirakaraka for marriage.
3. The aspect or placement of Putrakaraka in the fifth house from the dasha running to see mutual attraction between two sexes and a possible relationship or marriage.
4. The navamsha dasha of the seventh house from Darakaraka, Atmakaraka or navamsha lagna.
5. For unconventional marriages see the influence of Rahu or Ketu on Darakaraka.
6. In the marriages of one's own choice, which is generally called love marriage in India, the aspect of Putrakaraka and Darakaraka on the rashi dasha or the fifth from it have a crucial role to play.

These are being illustrated through some charts now.

Example 1 - Male (Secret Marriage)

This young man got married in the Vimshottari dasha Jupiter/Ketu. Ketu is with the navamsha lagna lord Mercury. From the navamsha chart the timing of their marriage is clear.

When he was born in the dasha of Gemini, the Bhratrikaraka Jupiter is in the eleventh house. He has an elder brother.

His mother had a miscarriage after his birth as Bhratrikaraka Jupiter which is **aspecting** the third house showed the promise but the aspects of Mars, Rahu and Saturn spoiled it.

He was running a jewellery business when he got attracted towards a beautiful girl in the Libra dasha which has Atmakaraka Mars and is aspected by Darakaraka from Taurus.

The fifth house from Libra is aspected by Putrakaraka Mercury.

He met her in the antardasha of Taurus in the mahadasha of Libra and Taurus contains Darakaraka. Here from Atmakaraka the Darakaraka is in the eighth house of secrecy and It happened in December **1999**. The aspect of Gnatikaraka Moon on the seventh from Libra shows some opposition to his marriage which he got

solemnised secretly in the antardasha of Cancer in the mahadasha of Libra in April 2000. This marriage was intercast as Rahu and Ketu are aspecting DK Sun.

Example 2- Husband (Inter-religious Marriage and Divorce)

This youngman has done his Masters in Pharmaceuticals. The fifth lord of navamsha Mercury is in a watery sign aspected by Ketu while it is with Rahu. It shows his nature of education.

Venus, the Sthirakaraka for marriage is debilitated here and is with Ketu aspected by Rahu which shows unorthodoxy in marriage. Then the afflicted Darakaraka and debilitation of Venus show both unorthodoxy in marriage and its breakdown.

He was married first in Capricorn/Leo in Dec **1985**. In July **1986** his wife got burnt to death in a fire accident in Capricorn/Leo/Aries. From Leo the Darakaraka falls in the sixth house and Leo being a rashi of accidents, it was predictable. It happened in the pratyantara of Aries, Gnatikaraka falls in the seventh house. He got married again in Aquarius/Leo in May 1997. Aquarius has Venus and Leo is aspected by Darakaraka. But it led to divorce in Aries/Cancer in Aug 2008. Again GK in the seventh house played a **crucial role**.

Children

Jaimini's Putrakaraka and Jupiter the natural significator of children have a crucial role to play in the birth of children. In the rashi dashas in which these are present or aspect the rashi concerned or influence the fifth house from there, birth of children can be expected and predicted.

Also, it has been seen that the fifth house from the navamsha lagna or the fifth house from Atmakaraka have also been seen to give birth to children.

The ninth house is the alternative house of children.

If these points are afflicted by malefics, It can lead to abortions, miscarriages also.

Virgo.....1913 to 1915

Libra.....1915 to 1926

Scorpio.....1926 to 1935

Sagittarius.....1935 to 1944

The notable point here is the placement of PK in the eighth house from the lagna and AK aspected by GK which led to the death of some children also.

Mishaps

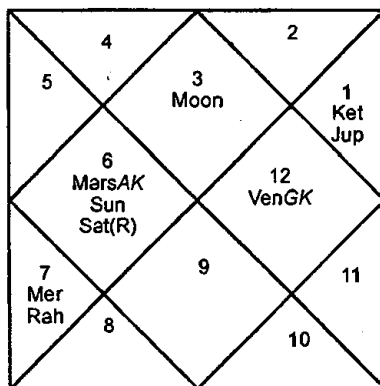

For mishaps to take place many factors are to be considered but some crucial ones are being pointed **here**—

1. AK falling in Sagittarius or Leo navamsha and afflicted is a factor to be taken seriously.
2. The role of GK is also to be considered.
3. The dasha of Atmakaraka particularly if it is the dasha of Leo or Sagittarius have been found to be causing mishaps.
4. The dashas of sixth, eighth or twelfth houses from the navamsha lagna or Atmakaraka are periods to be watched.
5. Taurus which is described as Vrishabha or bull and originally referred to bullock carts in ancient times is indicative these days of vehicles, and therefore of vehicular accidents.
6. Similarly, the dual signs have found to be causing accidents involving two wheeled vehicles.
7. Violent accidents can and do take place, if the sixth house from rashi dasha running is afflicted by malefics.

Astro Portraits

The need for giving astro-portraits has become a tradition of writing by the teachers of the Bharatiya Vidya Bhawan where I got my education in astrology (jyotisha) and where I had the benefit of reading the books of Sri K.N. Rao who started giving some astro portraits in his well structured books. Later Sri Manoj Pathak and Sri Naval Singh too included some astro portraits in their books on Dwisaptati Sama Dasha and Chatursheeti Sama Dasha.

The justification for giving this is to show a total application of all that has been shown in this research in the same of some individuals.

The individuals chosen here are of one family, the famous political Nehru-Gandhi dynasty which has given to India three prime ministers and whose horoscopes are authentic, verified and on which successful predictions have been given by many astrologers, particularly, Shri K.N.Rao whose book *The Nehru Dynasty* is the source of the historical facts of these famous Indians.

The reason for giving astro-portraits of famous people at the end of a research on a book of a new dasha is to help readers see the entire validity of this research by seeing more than five or six events in their lives over a period of ten to seventy or more years.

Jawaharlal Nehru

Cancer.....1889 to 1897

Jawaharlal Nehru was born in Meeraganj in Allahabad which was the colony of prostitutes. MK Saturn in the lagna with Ketu shows the poor surroundings at the time of his birth.

Leo.....1897 to 1909

In the dasha of Leo with the second, fifth and eleventh house showing the influence of AK, AmK, PK and GK, his father's legal practice improved and there was the birth of two younger siblings in Vijay Lakshmi Pandit (18 Aug. 1900) and Krishna Hutheesing (1907) also.

In the antardasha of Pisces (having his PK) he was sent to England for education after he had been coached at home and had never been sent to an Indian school. He has till date been the only Indian prime minister who never studied in an Indian school In India.

Virgo.....1909 to 1916

Fifth from Virgo has Rahu aspected by Jupiter gave him education in **bio-sciences** and later In law also. Virgo is also aspected by PK Mars.

In Virgo/Cancer (October 1915 to April 1916) he got married. Cancer has DK and the seventh house from here is aspected by Jupiter showing a traditional, orthodox marriage **inspite** of his Europeanised upbringing. The marriage took place In Feb. 1916. Virgo is aspected by Venus the Sthirakaraka for marriage while

Cancer has DK.

Libra.....1916 to 1919

Libra is aspected by Jupiter the Sthirakaraka for progeny while in Libra/Aquarius (Nov 1917 to Feb 1918) with the fifth house receiving the aspect of PK Mars and also Venus and Moon, he became the father of a world famous daughter, Indira Gandhi.

Scorpio.....1919 to 1928

Mars the PK is in the fifth from Scorpio aspected by GK Venus. During this period his wife had two pregnancies both leading to miscarriage in one case and death in the other.

Sagittarius...1928 to 1937

It was in this period that he became the president of the Lahore Congress when he declared that India should have full republican status and not dominion status which the English rulers had proposed.

In Sagittarius/Aquarius (May 1930 to Feb 1931) with Sthirakaraka Sun falling in the eighth house from Sagittarius and in the sixth house from Aquarius, his father Motilal Nehru died. MK falling in the eighth house from Sagittarius, shows the rich inheritance Jawaharlal Nehru, who never served anywhere to earn a livelihood, got.

Sagittarius/Virgo (August 1935 to May 1936) his wife Kamala Nehru died. DK in the eighth house from Sagittarius with Saturn and Ketu gave her tuberculosis which was an incurable disease those days. Venus the Sthirakaraka for wife is aspecting Virgo.

The Sagittarius period saw two deaths in his life, first of his father and later of his wife.

Capricorn1937 to 1944

It was in this period that Nehru committed the worst mistake by annoying Chowdhury Khalikuzzama as pointed by Maulana Azad in his "India Wins Freedom" and much earlier by Gopinath Srivastava in his "When Congress Ruled UP". The demand and formation for Pakistan became inevitable after this. There are no benefics in kendra from Capricorn and the tenth lord Venus is in the twelfth house.

Aquarius.....1944 to 1950

Aquarius dasha proved the luckiest period in the life of Jawaharlal Nehru. The eleventh house from **this** has Moon and Venus showing an elevation aspected by Mars and Mercury. In Jaimini there are AK and GK in the eleventh house while in the second house they are AmK and PK.

During this period two lucky events proved a turning point in his career. First, he became the president of the Indian National Congress because Maulana Azad, a Muslim was not acceptable to the Muslim League for negotiations at the time of Indian Independence and the partition of the country. Jawaharlal Nehru got chosen luckily. Then again at the time of Independence, it was the name of Sardar **Patel** that was proposed for the post of the prime minister of India but as many as nine provincial working committees of the Congress and none proposed the name of Jawahar **Lal** Nehru. **Mahatma** Gandhi however persuaded Patel to stand down in favour of Jawahar **Lal** which Patel **did**. It is how this period of Aquarius proved the luckiest for Nehru.

Pisces.....1950 to 1958

The Pisces period saw Jawaharlal Nehru at his peak nationally and internationally with the tenth house having all the rajayogas. Nehru-Tito and Nasser representing the Non-aligned movement and the **Hindi-Chini** bhai-bhai saw Nehru at his peak. Lord Mountbatten had said, without knowing astrology, that if Nehru had retired in 1958, world would have remembered him as the greatest statesman of the twentieth century. Fates had willed otherwise as Nehru's career had to suffer a great anti-climax in the next dasha of Aries.

Aries.....1958 to 1970

From Aries, no single **benefic** is in kendra and it is a cardinal principle of Jaimini astrology that a rashi (or navamsha) dasha which has only malefics in kendras proves unfortunate. It was an unfortunate period in the **life** of Nehru.

The Amatyakaraka falls in the twelfth house here and is with Mars and is aspected by GK. It shows decline in fortunes, popularity and even the period of fall which it was historically.

In Aries/Cancer (1961 to 1962 November) with AK falling in the sixth house, Nehru suffered a major setback when **Indo-China** war took place and the prestige of Nehru got reduced to dust.

In Aries/Leo (1962 to 1963 Nov) with Amatyakaraka falling In the eighth house, the nation started debating openly "Who after Nehru". With PK and AmK falling In the eighth house, Nehru secretly nurtured his desire to groom his daughter as his successor as subsequently came to be known. To get rid of his own possible rivals and of his daughter in future, Nehru came out with **Kamraj Plan** according to which many senior Congress leaders should retire from ministerial and cabinet posts and devote themselves to party work. The plan worked and was accepted grudgingly.

But earlier in this period he had suffered a paralytic attack In Bhubaneshwar in February 1963 which ultimately became the cause of his death.

Leo like Sagittarius is the rashi of rise and fall and Nehru never recovered from the paralytic stroke he suffered in Bhubaneshwar. Leo also happens to be the eighth house of the navamsha lagna.

The last period in his life was **Aries/Virgo** (Nov 1963 to Nov 1964). From Aries, **Virgo** is the sixth house.

Nehru **was now** a seventy five year **old** man, a paralysed man, paralysed physically and emotionally seeing all his international prestige sunk so low as Egypt's Nasser's had sunk later after a humiliating defeat in a war with Israel.

In a press conference in May 1964, Jawaharlal Nehru had asked people not to think that the Nehru era was over and he died in the same month on 27 May 1964 leaving the question of his succession unsolved. In a contest between **Lal Bahadur Shastri** and **Morarji Desai**, Shastri was chosen and the problem of succession was solved for the **time** being.

Indira Gandhi

Indira Gandhi's horoscope with three exchanges has always been shown as a rare horoscope. It should be seen that her navamsha is equally remarkable.

The AmK here **is with** PK, In the tenth house from the **AK** and is aspected by all other karakas, BK, MK, GK and DK. She **is** remembered as the strongest prime minister of India in the brief sixty year history of Indian democracy, after our Independence on 15 August 1947.

Virgo.....1917 to 1929

Indira Gandhi was born In the opulent Anand Bhawan and in dasha of Kanya from BK and Sun, the Sthirkaraka for father are in

In **Libra/Cancer** (Nov. 1938 to Nov. 1939) she herself suffered from TB in July 1939. Libra is aspected by **GK** Moon and Cancer a watery sign has Rahu aspected by **GK** Moon from its eighth. Her father sent her to Switzerland for treatment of TB, she was here looked after by Feroz. The lonely girl Indira clung to Feroz, her only support in that difficult situation. In Libra, there is **PK** Mercury aspected by **DK** showing the time of her attraction to someone, in this case Feroz.

Scorpio.....1941 to 1945

Indira decided to marry Feroz, a Parsi, despite strong opposition from her father. Their marriage was solemnised on 26 March 1942 in **Scorpio/Sagittarius** dasha. (March 1942 to July 1942)

The fifth house from antardasha **Sagittarius** is aspected by **DK** Sun which shows marriage by own choice.

In **Scorpio/Cancer** (July 1944 to Nov 1944) she became the mother of her first son Rajiv Gandhi. The **9th** house, the alternative house of childbirth is aspected by Jupiter the natural **PK**. Jupiter is aspecting the antardasha rashi Cancer as well.

Extra-ordinary Rise in Career of Father

The 9th house from Sagittarius has BK Mars and Sun, the Sthirakaraka for father. These are aspected by AK, AmK and PK making so many Jaimini Rajyogas there. Her father became the PM of India in this dasha of Sagittarius/Pisces (May 1947 to Nov. 1947).

Capricorn 1951 to 1963

Capricorn was the dasha of her AK Saturn in Rahu-Ketu axis. Her **DK Sun** falls in the 8* house from Capricorn afflicted by malefics. The 7th house from Capricorn has Rahu, aspected by GK Moon, showing disturbance in family life and separation from her husband.

Paralytic Stroke to Father Nehru in Feb. 1963

In Capricorn/Sagittarius dasha (Nov. 1962 to Nov. 1963) - After receiving setback from **Indo-China** war her father suffered a paralytic attack. From Capricorn her BK Mars and Sun falls in the 8* house. The 9th house from antardasha Sagittarius has BK Mars and Sun. Sagittarius true to its nature gave her father a serious disease from which he never recovered till his death.

Aquarius.....1963 to 1975**Death of Father Nehru on 27th May 1964**

Aquarius/Aquarius dasha (Nov. 1963 to Nov. 1964) Her father died after suffering from prolonged illness. BK Mars and Sun Sthirakaraka for father are aspecting the 9* house from Aquarius.

Aquarius has GK Moon placed in it aspected by Rahu, PK Mercury and AmK Venus. This Jaimini Rajyoga made her the Information and Broadcasting Minister in June 1964, in the cabinet of Lal Bahadur Shastri. But because of GK Moon in Aquarius, she faced lots of difficulties.

She became the PM of India on 24th Jan 1966 for the first of her two terms in **Aquarius/Aries** dasha (Nov. 1965 to Nov. 1966). She won the contest for the post of PM from Morarji Desai. In Aquarius/Capricorn dasha (Nov. 1974 to Nov. 1975), she lost court case in June 1975 in Allahabad High Court relating to elections. Capricorn is the antardasha of AK Saturn afflicted by Mars and Sun. It is well known that dasha of AK is the dasha of fall also. It was in this period that she declared the first ever national internal emergency though after the 1962 Indo-China war the first national external emergency was declared.

Pisces.....1975 to 1986

From the dasha of Pisces, AmK falls in 8th house and heavily afflicted also. The image of the heroine of 1971 War was tarnished. Price rise was at its peak leading to agitation all over the country particularly in Gujarat and Bihar.

In the dasha of Pisces/Aries (October 1976 to Sept. 1977) Indira Gandhi faced a humiliating defeat in General Elections held in March 1977. It was the end of sinister rule of Indira and her son Sanjay. Atmakaraka placed in the tenth house from rashi dasha or antardasha is a period to be watched carefully for career. From Aries AK Saturn is placed in tenth house and afflicted by malefics caused her downfall.

Facing opposition within the party, Indira Gandhi decided to split the party again on 2nd Jan. 1978. It was in Pisces/Taurus dasha (Sept 1977 to Aug 1978). The GK Moon is placed in the 10* house from antardasha Taurus showing difficulties in career. The new name of the party was Congress(I).

Rajiv Gandhi

Leo.....1944 to 1954

Birth of younger brother Sanjay Gandhi (14th Dec. 1946)

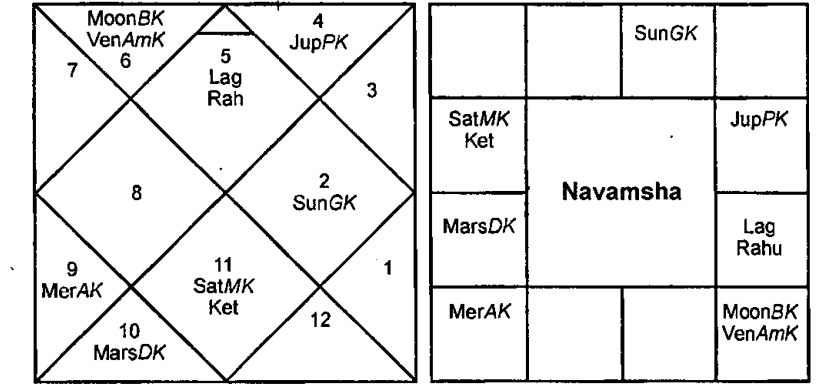

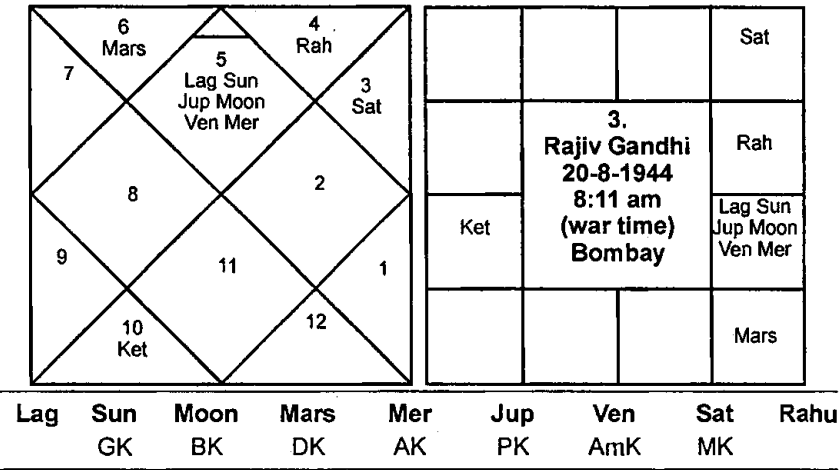

The aspect of Mars, the natural Bhratrikaraka, on Leo is a promise of the birth of a younger sibling. In the antardasha of Libra, the third house (April 1946 to February 1947) his younger brother Sanjay Gandhi was born. The BK Moon is aspecting the third house from Libra (Sagittarius) showing the timing of the birth of the younger sibling.

Libra.....1964 to 1976

His mother Indira Gandhi became the prime minister of India for the first of her two terms in Libra/Scorpio in Jan 1966 (August 1965 to August 1966). From Libra the tenth house has exalted Jupiter aspected by Sun the Gnatikaraka and Saturn the Matrikaraka. It shows the contest for the post of the prime minister which happened when Morarji Desai challenged her and a contest had to

be held. She won it in the antardasha of Scorpio from where the MK is in the fourth house and the elevent house has AmK Venus and Moon aspected by AK Mercury showing the gain in the famous contest.

From Libra, the fifth house has Saturn, a technical planet aspected by Jupiter PK. During this period Rajiv was studying in England where he fell in love with an Italian girl in the antardasha of Capricorn which has DK aspected by Rahu showing the foreign origin of his future wife. The Capricorn antardasha (August 1967 to August 1968) saw the consummation of this love affair into the bond of matrimony in February 1968.

The fifth house from Capricorn has GK showing the interruption in his studies.

The fifth house from Libra aspected by PK Jupiter was also a

period of the birth of his children, son Rahul and daughter Priyanka.

Libra period was predominantly the period of the political career of **his** mother In which **his** own career seemed to get relegated **into** a background. In the Leo antardasha (August 1974 to August **1975**) his mother lost **in** an election petition filed against her. The fourth lord from Leo (parliamentary seat) placed in the sixth shows the dispute here **clearly**.

Scorpio.....1976 to 1987

In Scorpio/Scorpio (August **1976** to July **1977**) with MK placed in the fourth house and malefics **in kendras** with **Rahu** In the tenth, his **mother** lost **in** the general elections in 1977, the only sitting prime minister of India ever to have lost In a general election.

It was in this period that **his** mother Indira Gandhi made a very surprising and spectacular comeback **even** when the **ignominy** of the national emergency had stuck to her reputation.

In Scorpio/Pisces (April 1980 to March 1981) his younger brother Sanjay Gandhi was killed on 23rd June 1980 in an aeroplane crash. From Scorpio the third house has Mars aspected by GK Sun **and** Rahu while from Pisces the third house has Sun GK aspected by Mars. The extraordinary tenth house from Pisces created for Rajiv Gandhi an opening to make an entry into politics now in accordance with the wishes of his mother.

In Scorpio/Cancer (Dec **1983** to Nov **1984**) with MK falling **in** the eighth house, his mother Indira Gandhi was killed on 31 Oct. **1984**. Zail Singh the president of India gave to Rajiv Gandhi the oath of the office of the prime minister in a surprising move and thus began the career as prime minister, the third in the Nehru dynasty, of Rajiv Gandhi. DK and PK aspecting the eleventh house from Cancer explains this sudden elevation of Rajiv Gandhi.

In Scorpio/Leo (Nov 1984 to Oct 1985) with the eleventh house receiving the aspects of AK, AmK and Moon, Rajiv led **his** party (Congress) to a record breaking victory, cashing in on the sympathy wave generated by the assassination of his mother and became an elected prime minister. The tenth house receives the aspects of PK and DK another Jaimini rajayoga.

Sagittarius ... 1987 to 1995

True to its nature, Sagittarius dasha was the period of sudden happenings in the life of Rajiv Gandhi.

Sagittarius/Pisces (August 1989 to April 1990) with rajayogas still strong, the nature of Sagittarius asserted itself when Rajiv's Congress party lost in the general elections of 1989. He became the most powerful ever leader of opposition now.

Sagittarius/Taurus (December 1990 to August 1991) with AK Mercury falling in the sixth house, (it is the sixth house from Karakamsha) and GK in Taurus aspected by violent Mars, Rajiv Gandhi was killed in a terrorist attack on 21st May 1991 and thus ended a life of very spectacular rise and spectacular fall of the third prime minister of the Nehru dynasty.

Why Navamsha Dasha?

In my book, '**Predicting through Chara Dasha**' I have stated clearly that Chara Dasha being a rashi dasha applicable only to the birth horoscope, has its limitations. It becomes blatantly visible when two horoscopes of two different people born on the same day, month and year with the same lagna and same karakas are given but it is found that their lives have been different.

In Parashari, these differences can be traced through the use of different *varga* charts. In Jaimini, also there are rashi dashas and also navamsha dashas through which the differences can be delineated. *It can be illustrated through the horoscopes of twins here whose navamsha lagna changes and through their different navamsha lagnas their different life patterns and events become clearly explainable through the navamsha dasha.* Unless **this** limitation of Chara dasha is kept in the mind, such problems will remain unresolved.

If Chara dasha alone is to be used in such cases, the astrologer must have full knowledge of their background and problems to be of some help in useful guidance. Of course, even in Chara dasha there is a way out of this but that is not the point at issue here.

Here are two horoscopes of two twin brothers born with a difference of ten minutes and their navamsha lagnas change which has made a world of difference to their lives and their longevity. The elder twin is Anup Yadav and the younger Arun Yadav.

The elder twin died at the age of 31 while the younger one is alive.

The difference between their lives can be seen through their education, career, marriage, children and death of one of them. In this exercise only the birth charts and navamsha are being used to emphasise the **Importance** of the navamsha.

K.N. Rao

Contrasting lives of the twins

The elder twin

Physical appearance — He was short in height and with stout body, Capricorn navamsha aspected by debilitated Saturn (Parashari aspect) explain this.

a. His **father** died in the **dasha of Leo/Taurus** in July 1972. The GK Saturn is placed in the ninth house from Leo rashi. Antardasha Taurus has **Bhatrikarak** Mars placed in It and Sun the **Sthirkarak** for father Is in sixth from Taurus

b. In the dasha of Virgo the elder twin did not take interest in the studies and was sent to a boarding school. The fifth lord from Virgo **is** Saturn debilitated and placed **In** eighth house from it. But since his Putrakarak Jupiter Is aspecting the fifth from Virgo, he somehow passed out higher secondary school.
